EXPERIENCE

Freelance Developer

May 2023 – Present

Self-Employed

- Built and deployed web and mobile applications for local clients, managing full codebase setups, database structures, and deployment.

Web Developer Intern

Feb 2026 – May 2026

Bakawan Data Analytics, Inc.

- Developed the DLSP Registrar DocsTrack system from scratch, creating a document request platform for the university registrar.
- Implemented role-based access controls, live status updates via WebSockets, and system audit logs tracking IP addresses and user agents.
- Tested API routes with Postman and evaluated backend performance under load using JMeter.

SELECTED PROJECTS

OCR Drawing Extractor

Feb 2026 – Jun 2026

Python, FastAPI, Tesseract OCR, pypdf, Tkinter

- Created a data pipeline using text-layer extraction for digital PDFs and OCR fallback for scanned images.

DLSP Registrar DocsTrack

Feb 2026 – May 2026

Next.js, TypeScript, Go, PostgreSQL, WebSocket, Postman, JMeter

- Built a document request app featuring payment status tracking and real-time updates for school administrators.

BakerPass

Aug 2025 – Jan 2026

Next.js, TypeScript, Fastify, Flutter, MySQL, Docker

- Developed an appointment booking system for Franklin Baker Company, including custom approval steps for clinic nurses.

EDUCATION

Dalubhasaan ng Lungsod ng San Pablo

2022 – 2026

Bachelor of Science in Information Technology (Software Development Major)

- Graduated **Cum Laude**

ACHIEVEMENTS

- **Best in OJT** – Top rating among all BSIT Software Development Major students, 2026
- **Best Capstone Project** – Franklin Baker Visitor Management System (BakerPass), 2026

TECHNICAL SKILLS

Languages: TypeScript, Go, Python, JavaScript, SQL

Frameworks & Libraries: Next.js, Fastify, FastAPI, Flutter, Tkinter

Databases & Tools: PostgreSQL, MySQL, Docker, WebSockets, Tesseract OCR, pypdf, Postman, JMeter
