

ALEXIS CORPORAL

San Pablo City, Laguna, Philippines 4000 • +63 945 468 1904 • corporal461@gmail.com • github.com/Alexis12119

TECHNICAL SKILLS

Languages: TypeScript, Go, Python, JavaScript, SQL
Frameworks & Libraries: Next.js, React, Fastify, FastAPI, Flutter, Tailwind CSS, OpenCV
Databases & Tools: Supabase, PostgreSQL, MySQL, Docker, WebSockets, REST APIs, Git, Tesseract OCR, Linux
Testing & QA: Postman, JMeter

EXPERIENCE

Freelance Software Developer May 2023 – Present
Self-Employed

- Built and deployed web and mobile applications for local clients, managing full codebase setups, database structures, and deployment.
- Created a video-streaming vet clinic system with live camera feeds so owners can monitor pets and admins can manage operations.
- Developed a school asset tracking system with relational databases and secure row-level access controls.

Web Developer Intern Feb 2026 – May 2026
Bakawan Data Analytics, Inc.

- Developed the PLSP Registrar DocsTrack system from scratch, creating a document request platform for the university registrar.
- Implemented role-based access controls, live status updates via WebSockets, and system audit logs tracking IP addresses and user agents.
- Tested API routes with Postman and evaluated backend performance under load using JMeter.

SELECTED PROJECTS

OCR Drawing Extractor Feb 2026 – Jun 2026
Python, FastAPI, Tesseract OCR, pypdf, Tkinter

- Created a data pipeline using text-layer extraction for digital PDFs and OCR fallback for scanned images.

PLSP Registrar DocsTrack Feb 2026 – May 2026
Next.js, TypeScript, Go, PostgreSQL, WebSocket, Postman, JMeter

- Built a document request app featuring payment status tracking and real-time updates for school administrators.

Helping Paws (Veterinary Clinic Management System) Mar 2026 – May 2026
Next.js, TypeScript, Fastify, WebSocket, Centralized Camera Stream Integration

- Made a clinic app where vets handle check-ups and pet owners view live video streams of their pets during confinement.

BakerPass Aug 2025 – Jan 2026
Next.js, TypeScript, Fastify, Flutter, MySQL, Docker

- Developed an appointment booking system for Franklin Baker Company, including custom approval steps for clinic nurses.

School Inventory Management System Sep 2024 – Nov 2024
React, Tailwind CSS, Supabase, PostgreSQL

- Built a real-time inventory application for a Senior High School to track school equipment and supplies.

EDUCATION

Pamantasan ng Lungsod ng San Pablo 2022 – 2026
Bachelor of Science in Information Technology (Software Development Major)

- Graduated **Cum Laude**

ACHIEVEMENTS

- **Best in OJT** – Top rating among all BSIT Software Development Major students, 2026
- **Best Capstone Project** – Franklin Baker Visitor Management System (BakerPass), 2026
